### *Introduction*

## INTRODUCTION

### a. 2009 Premium Rates Summary

In July 2008, the Board of Directors of the Workplace Safety and Insurance Board (WSIB) approved the 2009 average premium rate for Schedule 1\* employers at \$2.26 for every \$100 of insurable earnings. The Board of Directors' decision to keep the 2009 average premium rate at \$2.26 – unchanged from 2007 and 2008 – is based on careful financial analysis, and an expectation that improvements will occur in health-and-safety and return-to-work outcomes consistent with the WSIB's *Road to Zero* and prevention strategies.

The decision comes after the WSIB sought input from stakeholders on the WSIB *Funding Framework* in February and March 2008. Discussions with employer stakeholders concerning premium rates were reflected in a revised *Funding Framework*, which was approved by the WSIB Board of Directors in April 2008.

The *Funding Framework* confirms the WSIB's commitment to ensuring the long-term viability of the workplace safety and insurance system; and to ensuring its financial resources are dedicated to improving the well-being of workers and employers throughout Ontario.

With the approval of the 2009 average rate in July, final rate group premium rates were set for employers based on their business activity – taking into account various factors such as injury frequency and average cost per claim – for each of the 155 rate groups.

The WSIB's decision to hold the line on the average premium rate assumes that significant progress will continue on key issues of concern to Ontario's employers and workers – such as safer workplaces, and improved return to work outcomes for injured workers.

Unsafe workplaces lead to more injuries and illnesses, and return to work delays mean higher claims costs. These, in turn, create pressure to increase premium rates. There are many things employers can do to help lower their premium rates. Ontario workplaces can help to mitigate the effects of rising claim costs and other financial

---

\* Schedule 1 average premium rate is a weighted average that is determined based on actuarial principles. It represents the average rate paid to the WSIB in a given year by registered employers for every \$100 of insurable earnings. The 155 rate group premium rates may be higher or lower than this average.

pressures on premium rates through improvements in workplace health and safety, and return to work programs.

Employers are encouraged to contact their WSIB account representatives or their Health and Safety Associations for more information about making their workplaces healthier and safer, and about implementing effective return to work programs.

## **b. The Role of the Workplace Safety and Insurance Board (WSIB)**

The WSIB helps workers deal with the consequences of workplace injuries and illnesses – providing insurance benefits and helping them recover and return to work. The WSIB:

- Administers no-fault workplace insurance for employers and their workers
- Provides benefits for injured and ill workers, and benefits for dependants of workers who have died as a result of a workplace injury or illness
- Monitors the quality of health care
- Assists in early and safe return to work.

The WSIB plays a key role in Ontario's occupational health and safety system. Preventing workplace injuries, illnesses, and fatalities is an important part of our mandate. We are working to change society's attitudes and behaviours when it comes to staying safe on the job. Through community outreach and mass media, we are delivering the messages that "there really are no accidents" and "you can never be too safe." Every one of us can take steps to make a difference and make Ontario's workplaces the safest in the world.

The WSIB is a statutory corporation created by an Act of the Ontario Legislature in 1914. The WSIB is responsible for administering the *Workplace Safety and Insurance Act, 1997* (WSIA).

The WSIB receives no government funding. WSIB premium revenue must cover all costs associated with both new and existing claims. Revenue is also raised through returns on invested assets.

Employers covered by the WSIA, are divided into two groups, referred to as "Schedule 1" and "Schedule 2." Schedule 1 employers are insured under a "collective liability" system, and are required to contribute to the WSIB Insurance Fund. Schedule 2 employers are "self-insured," and are individually liable for the full costs of their workers' WSIB claims. The WSIB pays insurance benefits for Schedule 2 workers and is reimbursed by Schedule 2 employers for costs (including administrative costs) of the claims.

This *Premium Rates Manual* pertains to Schedule 1 employers only.

### c. *Funding Framework*

The WSIB's *Funding Framework*, approved by the WSIB Board of Directors in April 2008, was established with significant input received from both worker and employer stakeholders. It outlines the funding principles to help us manage the unfunded liability and the rate-setting process

The *Funding Framework* provides a prudent and financially-responsible process for setting stable and predictable premium rates, while ensuring the long-term financial security of Ontario's workplace health and safety insurance system.

The *Funding Framework* confirms the WSIB's commitment to ensuring the long-term viability of the workplace safety and insurance system; and to ensuring its financial resources are dedicated to improving the well-being of workers and employers throughout Ontario.

The 2008 review of the WSIB's *Funding Framework* aligned the WSIB's financial strategies with its Five-Year Strategic Plan 2008-2012, *The Road to Zero*, and associated targets and expected outcomes.

The *Funding Framework* describes the WSIB's key funding principles:

- Alignment with the WSIB's Five Year Strategic Plan 2008-2012, *The Road to Zero*
- Collective liability
- Inter-generational equity and fairness among employers, workers and the system
- Financial prudence and sustainability
- Premium rate and benefit stabilization
- Retirement of the unfunded liability
- Ease of administration, communication and understanding

Funding principles are applied collectively as a complete and balanced whole, with no one principle taking precedence over another.

With respect to premium rate and benefit stabilization, the *Funding Framework* sets out rules for premium rate increases:

- Because of the long-term nature of the benefit obligations, and the uncertainties and unanticipated pressures that may arise due to factors such as economic conditions and legislative changes, the WSIB carefully considers the impact and makes reasonable efforts to ensure premium rates do not change in any unusual or unpredictable manner from year to year.

- At the rate group level, premium rates will not increase by more than 10% over the average rate change for 95% of all rate groups. For example, this means that a 0% increase in the average premium rate would translate into a maximum increase of not more than 10% (i.e. 0% plus 10%) for 147 (i.e., 95% of 155) of the rate groups. Although rate group premium rates continue to increase or decrease depending on the changing experience of individual rate groups, this rule provides a measure of premium rate stability for most employers.

The WSIB's *Funding Framework* can be viewed on the WSIB website at:  
[www.wsib.on.ca/wsib/wsibsite.nsf/LookupFiles/DownloadableFileFundingFramework/\\$File/FundingFramework.pdf](http://www.wsib.on.ca/wsib/wsibsite.nsf/LookupFiles/DownloadableFileFundingFramework/$File/FundingFramework.pdf)

#### d. Derivation of the 2009 Premium Rates

The Schedule 1 costs of the workers' compensation system are funded through premium rates, which are applied to the payroll of Schedule 1 employers. All Schedule 1 employers are not charged the same rate. Rather, for the purpose of charging them on a more equitable basis, employers are classified into rate groups. Rate groups are defined in a classification scheme and each rate group has a different premium rate, reflecting the inherent risk of the specific business activities of industries insured within that group.

The classification scheme divides the services and business activities into nine broad classes, which are further subdivided into 155 rate groups based on similarity of business activity and relative risk. The number of rate groups has not changed for 2009. More information about changes to the WSIB classification scheme can be found in Section 8 of this manual. Additional details about the classification scheme itself can be obtained from the WSIB's *Employer Classification Manual* located at [www.wsib.on.ca/wsib/wecm.nsf/home/ecmhome](http://www.wsib.on.ca/wsib/wecm.nsf/home/ecmhome).

For each of the classes and rate groups defined in the classification scheme, the WSIB prospectively derives a premium rate to cover costs relating to the upcoming 2009 premium year. These costs include:

- a) The expected lifetime future costs to pay benefits and claims-related administrative expenses associated with all new claims for the premium year;
- b) The WSIB's administrative expenses, prevention costs and other statutory obligations for the premium year;
- c) The charge to retire the WSIB's unfunded liability in accordance with the WSIB's *Funding Framework*; and

- d) The gains and losses component, which takes into account the actual claims cost experience of a class, as compared to what was originally priced in specific injury years. For the 2009 premium rates, the gains and losses component reflects actual experience in injury years 2003 through 2007.

Premium rates are determined annually and are expressed as a dollar amount per \$100 of insurable earnings.

An annual maximum ceiling for average earnings used for determining benefits and premiums is set each year according to the *Workplace Safety and Insurance Act*. The ceiling for the premium rate year (2009) is calculated based upon 175% of the average industrial wage for Ontario from the most recent published Statistics Canada earnings data available as of July 1 of the previous year (2008). The 2009 maximum insurable earnings ceiling is \$74,600, an increase of 1.8% over the 2008 ceiling of \$73,300.

The nine broad industry classes play a significant role in rate setting, because the class level is where certain cost items are projected using data and assumptions particular to each class. After the class estimates have been determined, corresponding estimates are derived for the rate groups of each class. The 2009 premium rates are based on claims experience and insurable earnings data from the most recent five years – that is, for the period from 2003 through 2007 inclusive.

There are many assumptions used when determining premium rates for the classes, including assumptions that relate to the economy. For instance, changes in the level of employment and earnings of a class are two factors that can influence the insurable earnings estimate for that class. The WSIB bases its assumptions of future insurable earnings on information received from organizations such as Informetrica<sup>†</sup> that is specific to the sectors covered by the WSIA and modified with input from WSIB Service Delivery directors.

---

<sup>†</sup> Informetrica is a privately-owned Canadian company specializing in quantitative economic research. Its products and services provide comprehensive coverage of Canadian economic prospects and public policy.

The class-by-class economic assumptions from the WSIB's forecast are shown below.

Economic Assumptions Supporting the 2009 Premium Rates				
Class	Earnings Growth 2007-2008	Earnings Growth 2008-2009	Employment Growth 2007-2008	Employment Growth 2008-2009
Class A: Forest Products	4.24%	2.95%	-2.21%	-1.60%
Class B: Mining and Related Industries	10.05%	2.46%	1.78%	-0.87%
Class C: Other Primary Industries	3.05%	4.76%	-0.12%	0.53%
Class D: Manufacturing	2.55%	1.76%	-0.59%	0.73%
Class E: Transportation and Storage	6.96%	4.91%	0.98%	0.13%
Class F: Retail and Wholesale Trades	3.34%	2.77%	1.09%	0.63%
Class G: Construction	3.14%	2.76%	-1.92%	-2.27%
Class H: Government and Related Services	4.94%	2.75%	0.81%	1.71%
Class I: Other Services	2.43%	2.21%	0.67%	0.83%
Schedule 1	3.37%	2.46%	0.29%	0.64%

## e. Classification Scheme and Data Sources

Schedule 1 employers are divided into nine classes (denoted by class codes A through I). Employers within each class are then subdivided into rate groups. The grouping of employers within a single rate group is based on similarity of business activities and/or relative risk. The number of rate groups in each class varies according to the size of the class. For example, Class B, Mining and Related Industries, contains four rate groups, whereas Class D, Manufacturing, contains 74 rate groups.

Rate groups are further divided into classification units. Classification units are used as a means of tracking the relative experience of various employer subgroups. Firms in a classification unit share similar business activities or relative risk. All employers within a single rate group, no matter which classification unit they belong to, are charged the same premium rate (before any merit adjustments or experience rating).

The classes referred to in this manual should not be confused with industry sectors, which is another categorization used by the WSIB to compare common business practices and approaches.

The figures shown in the Supporting Documentation sections of this manual are based on the data available as of June 2008. Employers may obtain more recent information by contacting the WSIB (see Section 11 of this manual for contact information).

## **SECTION 2**

---

*Definition of 2009  
Premium Rate Components*

## **DEFINITION OF 2009 PREMIUM RATE COMPONENTS**

### **A. New Claims Cost**

- |    |                       |   |
|----|-----------------------|---|
| 1. | Gross New Claims Cost | The estimated cost of new claims for injuries expected to occur during 2009   |
| 2. | SIEF                  |   |
| a. | Relief                | The portion of Gross New Claims Cost charged to the Second Injury and Enhancement Fund (SIEF) due to injury costs associated with second injuries |
| b. | Transfer Charge       | Contribution to provide for SIEF relief   |
| 3. | Net New Claims Cost   | Gross New Claims Cost less SIEF relieved costs plus transfer charge levied to fund SIEF   |

### **B. Overhead Expenses**

- |    |                         |   |
|----|-------------------------|---|
| 1. | Administrative Expenses | Operating expenses of the WSIB estimated for the year 2009  |
| 2. | Legislative Obligations | Expenses the WSIB is required to fund under the <i>Occupational Health and Safety Act</i> and the <i>Workplace Safety and Insurance Act</i> |
| 3. | Prevention              | Expenses for the Safe Workplace Associations (SWAs) estimated for 2009  |
| 4. | Total Overhead Expenses | Total of Administrative, Legislative Obligations, and Prevention expenses   |

**C. Unfunded Liability**

Payment required to retire the unfunded liability (UL) according to the funding strategy of the WSIB

**D. (Gain)/Loss**

Adjustment reflecting the difference in actual vs. expected claims cost experience for injury years 2003 through 2007

**E. Premium Rate**

Total cost per \$100 of insurable earnings required to fund new claims, overhead, (gain)/loss, and unfunded liability

# **WSIB** 2009 **Premium Rates** MANUAL

## **SECTION 3**

---

*Summary of Allocation Rules*

## **SUMMARY OF ALLOCATION RULES FOR 2009 PREMIUM RATES**

### **A. New Claims Cost**

Gross new claims costs are determined at the class level. However, rate groups belonging to a class pay them.

The share of the class gross new claims cost charged to a member rate group is based on the number of Lost Time Injuries (LTIs), the average cost of an LTI expected for that rate group and a loading for future claims administrative expenses of new claims for the premium year.

The average cost of an LTI for a rate group is determined via a Cost Index, which indicates the relative costliness of an average LTI of the rate group as compared to that of its class.

Net new claims cost is the gross cost adjusted for expected relief and transfer charge for the Second Injury and Enhancement Fund (SIEF).

### **B. Overhead Expenses**

Overhead expenses are allocated to rate groups in proportion to their net new claims cost and insurable earnings.

A rate group is granted overhead relief if its allocated overhead charge exceeds a set percentage of its net new claims cost.

Rate groups covered by a particular Safe Workplace Association (SWA) pay a share of the expenses of that SWA.

Overhead expenses for classes are the sum of expenses for member rate groups.

### **C. Unfunded Liability**

The Unfunded Liability (UL) charge is determined for Schedule 1 as a collective whole. However, rate groups pay it.

The share of the UL charge paid by rate groups is in proportion to their net new claims cost.

The UL charge for a class is the sum of the UL charges for member rate groups.

### **D. (Gain)/Loss**

Gains and losses are determined at the class level and spread over a period of five years. If the actual claims cost experience of a class was better than its expected experience then a gain is generated for that class. Conversely, when the actual experience was worse than expected, there is a loss. For the 2009 premium rates, gains and losses are based on injury years 2003 through 2007.

A gain results in a reduction in premium rates while a loss results in an increase.

The gain or loss of a class is allocated to its rate groups in proportion to their net new claims cost.

## **SECTION 8**

---

*Classification Scheme Changes*

## 2009 CLASSIFICATION SCHEME CHANGES

The Workplace Safety and Insurance Board (WSIB) reviews the classification scheme each year. For 2009, no rate groups are being added or removed but some changes are being implemented.

These changes are summarized in the table below.

SUMMARY OF CLASSIFICATION SCHEME CHANGES FOR 2009			
The following Classification Units (CUs) ...		Will appear as follows in 2009	
2008 Rate Group	Description	2009 Rate Group	Description
570	<b>4592-001</b> Freight Forwarders (Trucking)	570	<b>4561-000</b> General Freight Trucking

As these classification unit changes do not affect how many rate groups there are, the number of rate groups in the WSIB's classification scheme remains at 155.

## SECTION 9

---

*Non-Credible Rate Groups*

## **NON-CREDIBLE RATE GROUPS**

Ideally, each rate group defined in the Workplace Safety and Insurance Board's classification scheme should be credible, that is, large enough so that reasonably reliable estimates can be made for deriving premium rates from a rate group's own claims experience. Although this is generally the case, particular industries or services in Ontario can decline substantially as the economy undergoes changes and this can lead to a situation where a previously credible rate group becomes non-credible. In addition, some rate groups have reduced the number of injuries to a level where there is not enough information available to estimate the average cost of a claim and, as a result, the rate group becomes non-credible. As part of the ongoing activity of rate making, the Workplace Safety and Insurance Board (WSIB) monitors the credibility of rate groups (RGs).

When the WSIB is concerned that a particular rate group has become non-credible, and is likely to remain non-credible, the WSIB may decide to remove such a rate group from the classification scheme through some form of rate group merger, as of a specified date. Employers in the affected industries or services would continue to be insured, but under another rate group.

Since the original development of the WSIB's current classification scheme, which was introduced in 1993, a number of rate groups have become non-credible. Different approaches have been used to address the issue of non-credibility, depending on the circumstances of each rate group.

Data supporting the 2009 premium rates shows that under current criteria four rate groups are not fully credible.

It is possible that the experience of some of the non-credible rate groups may return to a fully credible level, eliminating the need for additional review. However, it is expected that for some of these rate groups, the lack of credibility would need to be addressed more formally by the WSIB, possibly through reclassifications or rate group mergers.
